

INTERNATIONAL COLOUR DESIGN WORKSHOP

June 27 - July 2, 2012 in Gripsholm, Sweden

Join our famous and popular colour design workshop, gathering people from across the world during the summer time in Sweden, when it is at its most beautiful!

Do not miss this opportunity:

- To learn and experience colour that you will put in practice immediately
- To learn about the interaction of colours
- To gain experience from different cultures and meet international colour professionals
- To get a lifetime experience in colour

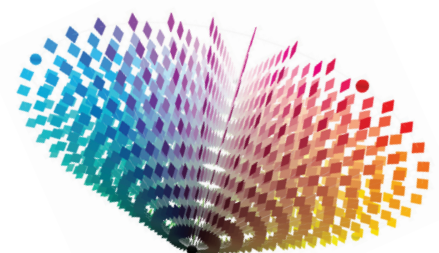

This is what gives this workshop its very unique and highly appreciated character.

The workshop is a residential course, providing wide possibilities to work very intensively with colour. It is given in English.

You will learn about: colour perception, interaction between colours, pattern and light, colour mixing, colour associations and feelings, how colour affect us, how different light sources will affect your colour design and colour analysis. The workshop contains lectures and exercises, both with gouache paints and with colour samples. An important part of the workshop is the colour projects you work with - in a group or on your own. It will give you new perspectives on the potential of colour and your daily work with colour.

- Course leaders:** Berit Bergström, Managing Director - NCS Colour Academy, Bengt Ahlin - Colour Designer, and guest speakers: Hans Arvidsson - Lighting Director, AF Consult, Jan Janssens - Associated Professor, Environmental Psychology, Department of architecture and built environment, Lund University.
- Site:** Gripsholmsviken Hotel & Konferens, Mariefred, Sweden. The conference site is located at the lake Mälaren, close to Gripsholm Castle, in a very historical and beautiful place, just 45 minutes away from Stockholm City.
- Previous training:** NCS Colour knowledge
- Fee:** EUR 2 300. Full board and lodging in single room without bathroom (room with bathroom will require a supplement of EUR 300), educational material and transfer from NCS Colour AB to Gripsholm (45 minutes by bus) and back, is included.
